

## 2004 Project Grant Recipients

Project Grant Funds are available through the Dutchess County Arts Council to support the arts and cultural activities of non-profit groups and organizations in Dutchess and Ulster Counties. These include: professional and avocational arts activities benefiting the general public in theater, dance, music, film, video, literature, visual arts, historical and cultural activities, and the use of libraries and museums as venues for the arts. Project grant programs are designed to serve all ages and ethnically diverse populations from all geographic areas of both counties.

Funds for these grants come from the New York State Council on the Arts (NYSCA) Decentralization Program for Dutchess and Ulster County and the Dutchess County Arts Council Fund, which provides additional project support in Dutchess County through funds from Dutchess County Government and private donors. The Arts Council has administered Dutchess County Project Grants since 1978 and the Ulster County Decentralization program since 1988. The Arts Council Fund was established in 1979. In 2004, the Dutchess County Arts Council received 32 applications in Dutchess County and 35 applications in Ulster County. The Arts Council's Board of Directors approved a total of \$41,200 in grants. In Dutchess County, 20 projects were funded; in Ulster 27 projects received grants.
